

MUHAMMAD RIZKI RAMADHAN

Full-stack Web Developer · React/Next.js · TypeScript · Node.js · TypeORM

+628987982807 | rizkiramadhanw234@gmail.com | Kuningan, Indonesia

Portfolio: <https://www.kudukuats.web.id/>

LinkedIn: <https://www.linkedin.com/in/muhammad-rizki-ramadhan-5a243b349/>

Full-stack Web Developer with 3 years of experience building web applications using React.js, Next.js, TypeScript, Node.js, Express.js, TypeORM and MySQL for database management. Experienced in frontend development, backend development, and application deployment on Linux servers using Nginx and PM2.

Has more than 5 years of experience in graphic design and UI/UX, with the ability to handle end-to-end projects from design, development, to deployment. Comfortable working independently or collaboratively in onsite and remote environments.

Work Experiences

DCK Media & Business Consulting – Kuala Lumpur, Malaysia Sep 2025 – Present

Full-stack Web Developer & Creative Designer – Remote Full-time

Agency Outsourced Marketing Business Partner with Client

- Developed and deployed the Empire Cuisine restaurant website end-to-end from UI/UX design to production using Next.js, TypeScript, and shadcn/ui, with VPS deployment via Nginx, PM2, and full SEO/AEO optimization including Google Search Console setup.
- Built the complete web app for SCSME (Selangor Chamber of SME), a multilingual membership and monetization platform, using Next.js, Express.js, TypeScript, TypeORM, and MySQL with VPS deployment via Nginx and PM2 — including database schema, paid upload workflows, subscription billing, event ticketing with QR check-in, admin revenue dashboard, and upload approval logic, with SEO/AEO implementation.
- Built a company profile website end-to-end using Next.js, including a landing page for marketing purposes and showcasing company KPIs.
- Integrated Power BI dashboards into the web platform using Next.js to provide real-time insights (sales and campaign performance).
- Conducted end-to-end QA testing (DCKonnect), identified bugs and usability issues, and delivered structured feedback with screen recordings.
- Deployment & Server Management: Managed application deployment on VPS, including installation and configuration of Node.js and MySQL, Linux server setup, firewall configuration using UFW, Nginx as a reverse proxy, and PM2 for process management to ensure application stability and 24/7 uptime.
- Supported branding initiatives through UI/UX design, product visuals, and social media content creation.

PT. Sinar Mulia Makmur (Newton Technology) – Jakarta, Indonesia April 2025 – April 2026

Full-stack Web Developer & DevOps

- Built and deployed a full-scale Printer Monitoring System from scratch to production, covering backend, agent, and real-time dashboard.
- Developed RESTful APIs (Node.js/Express) with JWT authentication and MySQL for secure, scalable data handling.
- Engineered a Windows Agent (Electron + PowerShell) for automated printer discovery, monitoring, and reporting.
- Designed a real-time dashboard (Next.js + WebSocket) enabling live status updates across multiple devices and locations.
- Implemented SNMP-based polling system to monitor printer metrics such as ink levels and device status.
- Built an auto-registration mechanism using license keys, reducing manual setup and improving deployment efficiency.
- Resolved critical production issues including token lifecycle handling, WebSocket reconnection strategies, and network communication across subnets.
- Deployed applications on Linux servers using Nginx as reverse proxy and PM2 for process management and uptime reliability.
- Provided cross-functional IT support covering networking, hardware troubleshooting, and system maintenance.
- Developed internal tools using PHP, Node.js, and React.js to streamline operational workflows.

Qurious Media Singapore – Singapore April 2025 – Sep 2025

Graphic Designer – Freelance (Remote Full-time)

Agency Outsourced Marketing Business Partner with Client

- Applied UI/UX principles to design user-friendly and visually engaging interfaces for web and digital platforms.
- Produced visual assets for print media: brochures, posters, flyers, business cards.
- Produced digital materials including web layouts, social media designs, and email campaign graphics.

PT. Deltaloka Konsultasi Indonesia – Satria Tower, Jakarta Mar 2024 – Jan 2025

Web Developer (Frontend React/Next.js) – Project Based

- Ohmura – Developed marketplace frontend features using Next.js, React-Query and Zustand for account management, transactions, and promotions.
- Sand Beach – Developed a fashion e-commerce frontend with responsive UI and optimized user flow using Next.js, React-Query and Zustand.
- Asta Kanti – Client Portal – Developed interactive dashboards and client portal systems using Next.js, React-Query and Zustand.
- BRIX (ERP Broker Insurance) – Developed ERP insurance dashboards using React.js, React-Query and Zustand for operational workflows and data management.
- FITS.ID – Developed responsive healthcare e-commerce frontend platforms using Next.js, React-Query and Zustand.
- Klinik SCR – Developed a modern responsive company profile website using Next.js.
- Hanjin Chemical – Developed a professional responsive company profile website using React.js and Next.js.

Kudukuats Project – Kuningan, Indonesia

Feb 2024 – Present

Full-Stack Web Developer – Personal Freelance Brand

- Developed a web-based radio playlist application for broadcasters at RRI Cirebon.
- Built PPDB systems, UMKM e-commerce websites, and company profile websites.
- Handled end-to-end full-stack development including UI/UX design, database design, development, hosting, and deployment.
- Built and managed WordPress websites for various client needs.
- Integrated websites into Android applications using WebView and Android Studio.

SMK Bhakti Husada Kuningan – Kuningan, Indonesia

Jul 2021 - Feb 2024

IT Teacher, Dapodik Operator & WordPress Web Developer

- Managed student and school administration data using the Dapodik system.
- Developed school registration (PPDB) and school profile websites to support digitalization initiatives.
- Designed promotional materials and managed school social media platforms.

CV. Vicky Collection - Kuningan, Indonesia

Dec 2019 – Jan 2021

Graphic Designer

- Designed brochures, flyers, posters, banners, logos, and other branding materials.
- Delivered creative visuals for both print and digital use.
